MUKDEN OCCUPIED BY JAPANESE ARMY

Russians Suffer Great Defeat
and Are Panic Stricken.

BLOODIEST BATTLE IN HISTORY.

The Losses by Both Armies Have
Been Enormous; In Fact, the Great-
est the World Has Ever Known.
Surrender of Russians Inevitable.

Tokio, March 11.—The Japanese
troops occupied Mukden at 10 o'clock
this (Friday) morning.

Yinkow, March 11.—Mukden fell at
10 o'clock this (Friday) morning. The
Russians are panic-stricken. Thou-
sands of prisoners and enormous quan-
tities of stores and guns have been
captured.

Tokio, March 10, 11 a. m.—Reports
from Manchurian army headquarters
say that the Japanese have captured
Tieta. The Russians are vigorously
defending their fortifications north of
the Hun river. A duststorm is in-
terfering with the battle.

Tokio, March 10.—Noon.—It is un-
officially reported that the Russian
strength west of Mukden consists of
two corps. The Japanese who de-
stroyed the railroad are pressing the
Russians northward, and the portion of
the Japanese center pressing the Rus-
sians northward along the Mukden
railroad is now engaged 6 miles north
of the Hun river.

The extreme Japanese right is 5
miles of Fushun.

Nearly all the Russians' heavy guns
and many field guns have been cap-
tured. The Russians seem to be
moving eastward toward Fushun, with
the object of retreating north.

News from St. Petersburg.

St. Petersburg, March 10, 2:10 p. m.
—The extent of the disaster to Gen-
eral Kuropatkin's army is as yet un-
known here, but the most sinister re-
ports receive credence and the public
believe that Field Marshal Oyama has
succeeded in closing the iron ring
around at least a large portion in the
army. Communication with Mukden
is apparently cut, as no word has ar-
rived dated later than yesterday at 5
in the afternoon, when the situation
with General Bilderling who commands
the rear guard and thousands who
were fighting off the Japanese assaults
almost at the walls of the city west
and north of Mukden was desperate.
Even from the east General Kuropatkin
pushed through until Fu pass, less than
8 miles east, where the Hun bends
sharply to the northward, was under
the Japanese guns. The opening in
the net was then only 12 miles wide
and nothing but a miracle, in the opin-
ion of many experts could then have
saved the situation.

All hope of Kuropatkin waiting for
an opportunity to strike and
convert defeat into victory has been
abandoned. The military critics
and the press in a dolorous strain
chronicle the last and worst reverse
to the Russian arms. The only con-
solation they find is that the Russian
troops have been conquered by a won-
derful foe.

Russians' Final Stand at Harbin.

Paris, March 11.—The Russian em-
bassy officials say General Kuropatkin's
retreat is part of a settled plan.
They say the real struggle will occur
at Harbin, where the Russians will
concentrate large reinforcements. The
Japanese occupation of Mukden is
generally considered here as definite-
ly showing that the Japanese have
won a victory and that General Kuropatkin's
reverse may soon reach the
conclusion of disaster.

The French military critics say the
Japanese capture of Tie Pass practi-
cally cuts off Kuropatkin from retreat
to the northward. They also attach much
importance to the capture of
Mukden, the capital of Manchuria.

News at China's Capital.

Peking, March 11.—The results of the
fighting in Manchuria have

made considerable of an impression in
diplomatic circles here, and even the
most sanguine pro-Russians have been
forced to admit that the prospects for
Russian success are discouraging.

From a Russian point of view it was
expected that after the winter had
passed the Russian armies reinforced
would have avenged their reverses and
retrieve their fallen fortunes.

The recent defeat has shattered this
hope and it is generally believed that
the end of the war is not far distant.

News at Washington.

Washington, March 11.—The Japa-
nese legation received the following
dispatch from Tokio:

"Our troops at 10 o'clock Friday
morning occupied Mukden."

"Our enveloping movements since
some days proved successful, and the
bloodiest battle is now proceeding in
various places near Mukden."

Story of the Battle.

Mukden, Thursday, March 9.—10 a.
m.—The Japanese last night pushed
up from the south across the plain be-
tween the Shakhe and Hun rivers and
are, as this dispatch is filed, about 1
miles south of the latter and from the
Hun opposite Machiapa and northward
Japanese battery are pouring in a
ceaseless fire. The Japanese succeed-
ed in placing siege guns and mortars
at Dushantun, about 6 miles west of
the city, whence they opened before
dawn. Dushantun was the scene of
yesterday of the bloodiest and most
desperate fighting of all this terrible
battle. Its possession was vital to
the Japanese, who stormed it again
and again. The Russians dislodged
them, but the Japanese finally recap-
tured the village after much hand to
hand fighting.

Eye-witnesses say the dead scat-
tered in the streets, court yards and
houses have been unburied four days.
Rifles and other arms lie about
wrenched and twisted. Hand gren-
ades were thrown by the Japanese and
the garrison was subjected to the
concentrated fire of as many as a hun-
dred guns. Once Dushantun is cap-
tured the Japanese can turn the guns
on Mukden railroad station, and
has been held at a frightful cost. The
Japanese are also concentrating their
efforts about 7 miles north of Mukden
and about 5 miles west of the rail-
road with the object of breaking
through and cutting off the surround-
ing troops below.

A blinding dust storm has been rag-
ing since daylight and the day prom-
ises to witness a most gruesome en-
counter the result of which no one can
conceive.

CORONER'S JURY'S VERDICT.

Declare that Mrs. Jane Stanford Died
an Unnatural Death.

Honolulu, March 11.—The coroner's
jury returned a verdict that Mrs. Jane
Stanford died an unnatural death. The
verdict says that the death was due to
strychnine poisoning the poison hav-
ing been introduced into a bottle of bi-
carbonate of soda with felonious in-
tent by some person or persons to the
jury unknown.

The inquest leaves the police of
Honolulu as much without a clue as
when Mrs. Stanford died. High Sher-
iff Henry said after the inquest that
it was his opinion that the strychnine
was placed in the soda in San Fran-
cisco by a member of Mrs. Stanford's
household. At the inquest Dr. Shorey
testified that the strychnine used, as
shown by the tests was a strychnine
such as is not used for medicinal pur-
poses, but used principally for poison-
ing animals. This statement is re-
garded as being important.

The jury returned their verdict af-
ter about two minutes' deliberation.
The detectives who are expected to ar-
rive from San Francisco on the steam-
er Alameda tomorrow may be able to
take up the investigation on new lines.
The local police admit that they are at
sea.

Aged Philadelphia Dead.

Philadelphia, March 11.—Oliver Hop-
kinson, head of one of the oldest and
most distinguished families in Phila-
delphia, died today of pneumonia. He
was 93 years of age. Mr. Hopkinson
was not only the oldest living mem-
ber of Philadelphia, but was one of
the oldest living graduates of the Uni-
versity of Pennsylvania.

WIFE BEATER GETS WHIPPED.

Mob Takes Man From Officers and Ap-
plies the Lash on Prisoner.

Rome, Ga., March 11.—George Fitz-
patrick, a well known character
around Lindale, was taken from the
hands of one of the deputy sheriffs of
this county while being brought to
Rome to be placed in jail for alleged
wife beating, and whipped almost into
insensibility by a mob of masked men,
and is said to be almost at the point
of death by reason of his punishment.

The deputy sheriff for the Lindale
district arrested Fitzpatrick just after
dark Wednesday evening and started
for Rome with him in a buggy.

When the sheriff and his prisoner
reached Mobley park, about half way
between Rome and Lindale, they were
held up by a mob of masked men
who told the official, with gun in his
face, to go back to Lindale, leaving
Fitzpatrick with them.

"We will give him all the punish-
ment he will ever get at the hands of
the law, and we will give it to him
without delay," said the leader of the
mob.

A huge placard has been hung, by
unknown hands, just outside the big
gate at the Lindale Mills.

The sign stated that wife-beating
and rowdy drunkenness had to stop in
Lindale.

An interesting feature of the matter
is found in the fact that "Jim Beas-
ley" signed himself "King of the Ku-
klux Klan."

Killed Woman, Shot Self.

Atlanta, March 11.—The coroner
held an inquest yesterday morning
over the body of Viola Shepherd, a
negro woman, who was shot and killed
by Andrew Stubbs two days ago at
the corner of Richardson and Pul-
lham street. After killing the woman
Stubbs shot himself and is at the
Grady hospital, not expected to live.
The evidence was that Stubbs wrote
a letter, leaving directions about the
burial of himself and woman. He
shot the woman three times and him-
self twice. Jealousy was the cause.
The verdict of the coroner's jury was
that the woman was killed by Stubbs
and that the shooting was murder.

FAVORABLE REPORT MADE ON TREATY

Funeral Services of Senator
Bate At Washington.

OTHER NATIONAL CAPITAL NEWS

Vice President Fairbanks Add Sena-
tors Pettus and Overman to Funer-
al Committee—No Quorum of Inter-
state Commerce Committee.

Washington, March 11.—The noly
legislative business transacted in the
senate today was in relation to the
death of Senator Bate, of Tennessee.
On motion of Mr. Gorman, the vice
president appointed Messrs. Pettus
and Overman, on the committee to ac-
company the remains of Senator Bate
to his home in Tennessee in place of
Messrs. Berry and Blackburn, who
were unable to serve. Mr. Gorman in-
troduced a resolution providing for the
payment of the funeral expenses of
Senator Bate, which was immediately
adopted. On motion of Mr. Cullom
the senate at 12:07 went into execu-
tive session.

At 12:50 the senate took a recess
until 1:50, when the funeral cere-
monies of the late Senator Bate will take
place.

Senator Cullom in the executive ses-
sion reported favorably the San Do-
mingo treaty. The senate will ad-
journ over until Monday and discus-
sion of the treaty will begin at that
time.

The senate today in executive ses-
sion confirmed the following nomi-
nation: Jerome Martin, New Mexico,
register of the land office at Santa Cru-
ce, N. M.

A quorum of the senate committee on
interstate commerce did not appear at
the meeting called for today to decide
upon a program from hearings on rail-
road rate legislation. An adjourn-
ment was taken subject to call of
chairman Elkins, with the expecta-
tion that there would be a meeting
Monday. There was an informal dis-
cussion as to whether the hearings
should begin at once, while the senate
is considering the San Domingo treaty
or be postponed until the middle of
April, but nothing conclusive was de-
termined.

WANT CONTEST SETTLED RIGHT.

Both Aspirants in Colorado Want a
Fair and Square Deal.

Denver, March 11.—Neither Gover-
nor Alva Adams nor former Governor
James H. Peabody wants the govern-
orship contest settled by any process
or procedure except a square vote in the
joint assembly on the question as to
which of them is entitled to hold the
office. The submission to the supreme
court for its opinion on the questions
involved in senator Alexander's resolu-
tions to declare last November's elec-
tion void and declare the office of gov-
ernor vacant, seems to be merely a
device of the Peabody Republicans to
bring about a situation where a
straight vote on the resolutions to oust
Governor Adams and declare Peabody
elected will be forced.

It is not expected that the supreme
court will decide that the legislature
can declare the executive chair vacant
and Peabody's supporters planned
early today to nullify the movement
of the anti-Peabody Republicans in
favor of seating Lieutenant Governor
McDonald in the chair of the chief ex-
ecutive. This done, they believe Pea-
body can secure a majority over
Adams in the decision in the contest.

New Packing Concern Organized.

Chicago, March 11.—A new packing
concern, which according to Alderman
Milton J. Foreman, its attorney, will
invest \$1,000,000 or more in the man-
ufacture of dressed beef and kindred
products, has been incorporated at
Springfield under the name of the
Western Packing and Provision com-
pany. Attorney Foreman, James Lev-
in, a lawyer, and Joseph F. Grossman
are named as incorporators. The cap-
ital stock is placed at \$200,000, but
this, Alderman Foreman says, is only
a beginning. The concession, it is
said, will be independent.

RICHARD B. MAUGHS IN TOILS OF LAW

Former Gainesville Man Charged
With Murder in California.

KILLED RANCHMAN EMPLOYER

Sheriff of Merced County, California,
Writes to Parties Here for Information
Regarding Man, Who is Now
Confined in Prison.

Richard B. Maughs, many years ago a resident of this city, and who married a young lady here, is in trouble in California, and now occupies a cell in the jail of Merced county upon the serious charge of killing his employer, a wealthy ranchman.

Maughs was well known in this city and section in his time, which was along in the nineties. He was a hale fellow well met, but never made much of a success of life, probably owing to his generosity when he had money. He would think nothing of entering a saloon and inviting the crowd to "join him" when he was financially in a position to do so.

About two months after his marriage Maughs deserted his young wife, and afterwards a child was born to them. He went to Texas, where all trace of him was lost until a few days ago, when H. F. Dutton received the following letter from Sheriff John S. Swan of Merced county, California:

"I herewith enclose you photograph and description of one who calls himself Richard B. Maughs, or Moss, who we have now confined in our county jail on a charge of murder.

"Maughs was working for a young man by the name of Zanders, who resided on his ranch in the coast range, in a very remote part of this country, in the capacity of cook. On Sunday, January 15, it seems from no provocation to speak of, Maughs shot young Zanders with a 44-Cal. pistol, killing him instantly.

"The reason I write you regarding this man, I find that he has in his possession a bank deposit book with your bank in the name of Mrs. S. M. Riggs, and date of last entry was May 1, 1903.

"Maughs claims he has been among the Indians a great deal, and the gunshot wounds described were caused from fighting Indians. He has a fair education, and has been around a great deal. He is a great boaster."

The description accompanies this letter, and is as follows: "No. 885, Merced county jail; Richard B. Maughs, alias Richard B. Moss; nativity Missouri; complexion, medium ruddy; hair, chestnut and gray; eyes, light blue; eyebrows, light; mustache, light; age, 35; height, 5 feet, 10 1/2 inches; occupation, all-round man; habits, moderate drinker and smoker; size of foot, 8 1/2; high forehead, slightly bald in front, dim scar of two inches center of forehead, several dim scars on forehead between eyes; mole outside right eye; deep gunshot wound right side under jaw; gunshot wound right leg about one foot above knee; left leg shorter than right; short chin.

The photograph accompanied this description, and notwithstanding that the prisoner alleged to be Mr. Maughs is now fifty-five years of age, and has grown a mustache, old acquaintances here see a familiarity of features which prompts them to declare the California authorities have the right man.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

A High Compliment.

Governor Broward has made appointments to the tuberculosis convention, which meets at the State House in Atlanta, Ga., on April 17, 18 and 19, of many delegates throughout Florida, among whom we notice Dr. N. D. Phillips and Dr. J. Harrison Hodges of this city. This is quite an honor to these gentlemen, since the convention will be comprised of the finest practicing physicians and surgeons of the country.

The Best Cough Syrup.

S. L. Apple, Ex-Probate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, \$1. Sold by W. M. Johnson.

THE CHAUTAUQUA.

Miss LaDell and the Tri-Century Concert Company Furnish Program.

The ninth day of the Chautauqua was made up of two programs of literary and musical numbers, and the audiences were highly entertained.

At the afternoon entertainment Miss Marietta LaDell, the brilliant young lady reader, gave a varied program that was highly pleasing. She has won the admiration of the most critical with her careful interpretation of her selections. In the rendering of her Scotch dialect number she showed her mastery of the dialect. She was assisted by Miss Rhea Hall Behmer, who favored the audience with a contralto solo, and responded to an encore by singing "My Old Kentucky Home." Miss Cunningham as accompanist.

Evening Session.

At the evening performance the Tri-Century Concert Company gave another of their musical and literary programs. Although they have been suffering from slight colds and not in a mood to put forth their best effort, the entertainment was quite up to the standard of their first night's appearance. The program was made up of popular numbers, and the last portion was devoted to Miss LaDell in some of her choicest selections.

Gives Health, Vigor and Tone.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50 cents. Sold by W. M. Johnson.

TEACHERS ARE PAID.

Warrants Issued for Service for Extra Term Two Years Ago.

Fourteen teachers who gave a month's extra service at the conclusion of the regular authorized county term of the Gainesville Graded and High School in 1903, and who have been out the amounts of their respective salaries ever since, have been made happy, since they have now been compensated for their labor. The amount aggregated is a little more than \$800, and the warrants have been issued by Superintendent Kelley.

This matter may be explained by the statement that the school in question is under the control of a board of trustees, being in a sub-school district. The trustees ordered the extra term of one month which was not provided by the county, with the natural consequence that the bills were turned down for this time, and there was no money left with which to pay. Since the board was successful in its case against the guaranty company a few weeks ago, securing a judgment for more than \$5,000, this swelled the treasury of the sub-district, and it was in this manner that the teachers were enabled to secure their money.

Invaluable for Rheumatism.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Dequan, Kinross, Ill. 25c, 50c and \$1. Sold by W. M. Johnson.

SAM JONES PLEASED.

Pays Mayor Thomas High Compliment. Says Gainesville is O. K.

Sam Jones, who recently spent a couple of days in this city, lecturing at the Chautauqua, writes The Atlanta Journal as follows:

"I have just returned from a hurried trip through South Georgia, and as far south as Gainesville, Fla. I spent one day at Blakley and one day at Fort Gaines. It is a thing of joy to note the glow and growth upon all sections of South Georgia.

"I was two days at Gainesville, Fla., Chautauqua. Gainesville is having a phenomenal growth at this time. The Chautauqua was largely attended. That institution marks an era and is looked forward to annually with great expectations. Gainesville rallies to her Bible Conference and Chautauqua season with the money and with the attendance, and they are dating the beginning of this new era of things in Gainesville, to the building of their large auditorium right in the heart of the city, and the inauguration of the Bible Conference every year, which is followed by the Chautauqua. The saloons have been driven out, the moral atmosphere purified and Gainesville realizes she can grow by leaps and bounds without the traffic of liquor in her midst. Gainesville has one of the most competent mayors I have ever met. He is a gentleman and a Christian, and has the push and pride and public spirit so essential to a growing city. They are now discussing the paving of streets. The national government has placed its machinery and its experts at the command of the county, and they are now building one mile of good road. There are clay pits in Florida which furnish a magnificent material. It is a kind of mixture of clay and sand, and when mixed in right proportions, it is very much like the chert roads which have been built around Atlanta. The streets of the city, and the roads of the rural districts will not only determine values, but also determine the development and up-to-date citizenship, wherever you find them. I wish for nothing so much as that Georgia shall get waked up on the good roads question. In North Georgia, our roads have been almost impassable this winter. We have object lessons in mud, but they don't seem to teach us. The truth of the business is, the average fellow is satisfied with what he has until he sees something better. As I have said before, it would be a good idea to get all the farmers in Georgia a ticket and let them travel a while."

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

FIRST NIGHT OF TEACHERS' INSTITUTE

Fine Program Rendered at School Auditorium Thursday Night.

A BIG CROWD WAS PRESENT

There Were Many Teachers, Representing Every Section of the County, and Many Visitors and Citizens Attended First Night's Session.

Notwithstanding the inclemency of the weather, the opening night of the Alachua County Teachers' Institute, which began in this city Thursday evening, was well attended, a great many having faced the disagreeable mist in order to lend their presence to the occasion.

The meetings are being held in the auditorium of the Gainesville Graded and High School, and the opening session was attended not only by teachers from various schools of the county, but by many towns-people and visitors as well. The following program was rendered Thursday night:

Session was opened by invocation by Rev. Thos. P. Hay, which was followed by an address of welcome from His Honor, Mayor W. R. Thomas. The Mayor's remarks were received with a great deal of interest, as he bade the teachers and visitors welcome to the city. The response was made by Prof. G. W. Bonner in behalf of the teachers. Professor Bonner spoke briefly but with a great deal of feeling.

The evening's program was concluded with a most interesting address by Prof. Tom F. McBeath of East Florida Seminary, who commanded the closest attention. Prof. McBeath is one of the ablest scholars and orators in Florida, and what he had to say upon this occasion enlightened the teachers and those present on many subjects.

THE NEW PAXTON.

This Famous White Springs Resort Under New Management.

Announcement has been made of the change of management of the Paxton House, White Springs, "Way Down Upon de S'wanee Ribber." This resort has been enlarged, thoroughly overhauled and renovated, and will in future be known as the New Paxton, under the management of Louis Herzog & Gertrude Dzialynski. The proprietors are well known in Gainesville, having resided here for several years.

White Springs is one of the great pleasure and health resorts of the South. It is one of the finest mineral springs in the world, and its waters the greatest remedy known for the cure of rheumatism, dyspepsia, kidney and bladder troubles and blood and skin diseases.

The New Paxton is situated conveniently near the spring. The rooms are large and well ventilated, making it an ideal summer resort, and they will no doubt make a reputation at the New Paxton.

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

THE GROUND BROKEN.

Diamond Ice Company Will Soon Have a New Plant at Alachua.

Ground has been broken for the new ice factory, which will be erected by the Diamond Ice Company at Alachua, and the building will be pushed rapidly to completion. The contract for the wood work has been let to A. E. Wittstock, and the brick work will be executed by E. C. McMahon. It is proposed to complete the building by April 30.

The plant, for which Manager Livingston says the order has already been placed, will be a fifteen-ton machine, modern in every respect.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy. Dr. King's New Life Pills. M. Flannery, King's New Life Pills, Chicago, says: "14 Custom House Place, Chicago, says: 'They have no equal for constipation and biliousness.' For at druggists."

SKIN DISEASES

Altoona, Pa., June 20, 1903.
I was afflicted with Tetter in bad shape. It would appear in blotches as large as my hand, a yellowish color, and scale off. You can imagine how offensive it was. For twelve years I was afflicted with this trouble. At night it was a case of scratch and many times no rest at all. Seeing the good the medicine was doing a friend who was taking it for Eczema, I commenced it, and as a result the eruption began to dry up and disappear, and to-day I am practically a well man. Only two tiny spots are left on the elbow and shin, where once the whole body was affected. I have every confidence in the medicine, and feel sure that in a short time these two remaining spots will disappear. S. S. S. is certainly a great blood purifier, and has done me a world of good. I am grateful for what it has accomplished, and trust that what I have said will lead others who are similarly afflicted to take the remedy and obtain the same good results that I have.

125 East Fifth Ave. JOHN F. LEAR.

While washes, soaps, salves and powders relieve temporarily, they do not reach the real cause of the disease. The blood must be purified before the cure is permanent. S. S. S. contains no potash, arsenic or mineral of any description, but is guaranteed purely vegetable.

Send for our book on the skin and its diseases, which is mailed free. Our physicians will cheerfully advise without charge any who write us about their case.

DR. HODGES AT CARNIVAL.

Was Greatly Interested in the New Orleans Spectacular Festival.

Dr. J. Harrison Hodges returned Thursday night from a flying visit to New Orleans, where he went a few days ago to be present at the great Mardi Gras in that city.

The Doctor says this is the finest carnival in the world. Other cities in Europe and America have their annual carnivals, but nothing approaches in extent and magnificence the New Orleans celebration. The festivities consisted of four monster fantastic parades and numerous masked balls, besides a great deal of individual masking and costuming.

This year the floats were the finest ever seen, and the subjects portrayed were interesting and educational.

The Krewes of Proteus portrayed the form "the Rubiogat" in twenty-four exquisite floats, the finest ever seen on the New Orleans streets.

The Mystic Krewes of Comas depicted in a series of beautiful floats, "The Lost Pleiades," and other societies of carnival revellers gave fantastic parades that were a marvel of beauty. "The Pleiades" is a constellation in the heavens thought by the ancients to consist of seven stars, but as only six were visible to the eye, one was said by mythology to have hid herself in shame for having fallen in love with a youth. The floats of the Krewes of Comas, in their search through the heavens for the lost star, were creations of artistic beauty seldom if ever equalled.

Dr. Hodges says the enthusiasm displayed upon the arrival of Rex, King of the Carnival, and his Queen and attendants and ladies in waiting, could not have been excelled if it had been the return of a real king to his royal subjects. It was hard to realize that it was all acting and make-believe. His triumphal entry into the city was accompanied by the cheers of the entire city and its fifty thousand carnival visitors. The festivities culminated on the night of Shrove Tuesday with illuminated parades, carnival balls and general revelling, and, as the Doctor remarked, "is well worth going many miles to see."

Mrs. Smith Married.

It will probably be a surprise to many people of Gainesville to learn of the marriage of Mrs. W. Lee Smith, formerly a milliner of this city, which occurred recently in Jacksonville. Mrs. Smith was wedded to Wm. L. Riles, a prominent jeweler of Bradentown. Her numerous friends in this city extend congratulations.

Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay cack for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1. Sold by W. M. Johnson.

Newberry, March 9.—Wednesday at one of Dutton's mines Lula Cambell killed Laura Starks by cutting her jugular vein and by other ugly gashes over her body. The woman died from loss of blood in about twenty minutes.

The cause of the killing was over the intimacy of the Starks woman with Lula's man.

The Cambell woman was arrested and placed in jail here Wednesday night, and will have a preliminary hearing this afternoon.

MR. TAYLOR WILL RUN.

Decided at One Time Not to Enter Race, but Changed His Mind.

W. B. Taylor, for the past two years one of the city's efficient and progressive aldermen, had about made up his mind not to again announce his candidacy, but after reconsideration of the matter has decided to enter the race.

Alderman Taylor is progressive, and has served his constituents faithfully and efficiently. He has accomplished a great deal as chairman of the street committee, having brought the committee out of the "hole" and at the same time performed a great deal of work on the streets. He will no doubt be complimented with a handsome vote.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overhauled, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.

ABOUT ADVERTISING.

When advertisers stop to consider that The Twice-a-Week Sun has a circulation in Alachua county of over 1,800 papers, and that the county has upwards of 32,000 population, it will be readily seen that all the papers in the county combined do not equal it as an advertising medium, and our assertion regarding circulating more papers than all others combined is true.

J. G. Baskin of Dunnellon has been nominated for State Senator, 20th district, to fill the vacancy said to exist by the removal of Senator Brown to Dade county. E. P. Thaggard was a candidate. The election will be held on Tuesday, March 28th.

There is some worry among the newspapers as to what will become of the colored man if we import foreigners to work in the cotton fields. There need be no unnecessary alarm along this line. Better say what will the poor cotton growers do if the President don't stop putting the colored man in office.

The Orlando Driving Park Association will give a race meeting March 21, 22, 23 and 24, 1905, and two races a day will be given each day except the last, which will include polo and a running race. The Osceola stock farm track, where the races will be held, is the best half-mile course in Florida and good sport may be expected.

TRUSTS AND COMPETITION.

There is a point where competition ceases to be a blessing and becomes an evil, where it ceases to be right and becomes a vice, where it ceases to be the life of trade, promoting enterprise and fixing value upon the economic basis of supply and demand, and becomes a strife for extermination and thus, through "a survival of the fittest," becomes monopoly, says The Wall Street Journal.

There is a dividing line, on one side of which competition appears as the highest good of mankind, and on the other side of which it appears as odious as war and tyranny. It is this fact that makes it so difficult for some to realize that competition may be good or bad, according to the stage at which it has reached and the objects which it seeks. For instance, Gilbert M. Montague in The Atlantic Monthly argues that the growth of trusts has not altered the economic principles and ethical code of business competition. So long as fraud, disparagement or coercion is not practiced, he says, free competition by underselling, factors agreements and by the other usual trade methods is sanctioned by the law of the land and by ethics.

This raises a very interesting as well as a very practical question, for on the answer to it depends the status, local and moral, of the great corporations which we call "trusts." New methods of competition which between many houses of equal strength are beneficent and right may become vicious and immoral when used by one great corporation against many small competitors. That competition which by economies in administration, by the introduction of new machinery or processes of production, is able to cheapen the cost and lower the price to the consumer is a healthy and legitimate competition. A competition, however, which leads to a war of prices produces demoralization alike to consumers and producers. There can be no question of the right of one producer to undersell another, provided he can do so by reducing the cost of production as to enable him to earn a profit at the lowered price; but that kind of competition is very different from the competition which is carried on by some of the great trusts in order to drive out of business the little concerns which are still in the field against them. It is one thing for a competitor to reduce the price by reducing the cost of production; it is quite another thing for a concern of large capital to use its superior strength to exterminate competition by reducing the price of its product below the cost of production in the territory covered by its competitor. That is not competition; it is simply war—"war to the knife," war of extermination. It is not competition because it aims at monopoly. Especially odious is it when a trust is thus enabled to undersell its competitor and drive him out of the field, not merely by the power of its superior capital, but also by its power to blackmail the railroads into giving it special rates which are denied to its smaller rivals.

There is something both ethically and economically wrong in the act of a producer selling goods below cost. Such an act benefits neither business as a whole nor the long run of the consumers. The consumer gets a temporary benefit at the expense of an ultimate dependence upon one source of supply. The sale of products below cost means ultimately the extermination of every producing agency except the one which has the longest pocketbook. The survivor of such a contest then has the whole field to himself and the consumer is at his mercy.

It is quite evident, therefore, that the immense changes which have taken place in the business of the world in the past few years have in a measure produced a corresponding change in the moral aspect of business. It is true, up to a certain point, that a new code of ethics is established. One article of this code is that it is not right for a corporation to drive out a smaller competitor by selling goods in that competitor's field below the cost of production. Such an act is an act of coercion and of war. It means force just the same as if an armed body had attacked the small competitor, destroyed his factory and driven his workmen away. And such an act is wrong. It is opposed to reason, to economics and to ethics.

"RICHARD IS HIMSELF AGAIN."

Recently, at Gainesville, the case of the State of Florida against Wm. M. Holloway was again continued until the spring term of the circuit court. Then perhaps when called a nolle prosequi will be entered on motion of State Attorney Calhoun. The people

To Raise Oranges at a Profit

look to your fertilizer. To produce satisfactory results, it must contain not less than 10 per cent. of actual Potash

of Florida, by their votes in primary and general election, have about decided the case in favor of the defendant. They heard all of the testimony introduced by W. N. Sheats of interpolating a letter he (Sheats) had written. Sheats and Holloway were rival candidates for State Superintendent of Public Schools, and Sheats was defeated in the primary election. Then the State Democratic Executive Committee decided that Holloway was still guilty and must not be a candidate. The committee then proceeded to nominate J. E. Wolfe of Pensacola as the party candidate, but the people (the jury) again acquitted Holloway, and elected him, and this should settle the matter, and we believe that it will.

The Metropolis opposed Holloway's election, believing from what had come to it that he should not be superintendent of schools, but since the people have spoken so emphatically through the ballot box, we accept the result, and will do all we can in a legitimate way to make his career as superintendent a success.

There is nothing now to gain by continuing the prosecution, as no one can take the office away from Holloway, and all should assist—instead of obstructing—him in the discharge of his official duties. Since inaugurated he has demonstrated ability and tact, and an inclination to do his utmost to please his constituents and to elevate the public school system.

The trouble between ex-Superintendent Sheats and Superintendent Holloway grew out of political rivalry, and the matter was referred to the people, that great arbiter of this republic, and they decided in favor of Holloway, and entered on the indictment not guilty, or no true bill, and The Metropolis now suggests to Judge Wills and State Attorney Calhoun, both of patriotic impulses, that they dismiss this case, as the people did on November 8th, and save our State Superintendent of Public Instruction from any odium which attaches to his office and reflection upon the State of Florida, and let him enjoy the rights of his position without cloud to the title thereof. One people and one party we should dwell together in peace and harmony, as it is best for all concerned. We believe that Mr. Calhoun, a descendant of that great and patriotic South Carolinian, will be justified in moving for a final dismissal.—Jacksonville Metropolis.

The above may surprise those who have not kept up with The Metropolis for the past ten years, but not those who have watched its course during that time. In 1896 The Metropolis supported Palmer and Buckner as against W. J. Bryan, the regular Democratic nominee. Four years later, however, when The Met. realized that Mr. Bryan would again be the Democratic standard bearer, it came out in a double-leaded editorial advocating his nomination, and has since claimed to be the "original Bryan paper." When Captain (now Governor) Broward was a candidate for the Democratic nomination The Met. belabored him in every imaginable way, but now that he is the State's chief magistrate, to read The Met. one would suppose that Governor Broward is the greatest living statesman and that he had been discovered and elevated to his present position by that paper.

But in the above article The Metropolis has out-Heroded Herod himself. During the last campaign scarcely an issue of that paper left the press that it did not contain some uncalled for cartoon and scathing article opposing the election of W. M. Holloway, the regular Democratic nominee for State Superintendent of Schools, and advocating the election of the Independent candidate, who had been "nominated"

by a minority of the State committee. Now that Mr. Holloway is State Superintendent, however, presto, change! The Metropolis would have the case against him dismissed.

The Sun is not aware of Mr. Holloway's wishes in the matter, but those of his friends who stood loyally by him when The Metropolis was doing all in its power to defeat him, desire to see the case disposed of in the regular way. He is as guilty or innocent as Superintendent as he was as Candidate Holloway, and a nolle prosequi of the case would not clear him of the charge now pending. On the contrary, it would give his enemies the very opportunity they so much desire for future use.

ELECTRIC RAILWAYS.

The bureau of commerce at Washington, in sending out its reports, gives a bunch of figures that would be all right if they were only up to date. In speaking of the competition between steam railroads and the interurban lines the statistics are only up to 1902, since which time there has been constructed hundreds of miles of interurban railways and many of the lines are over a hundred miles in length, having limited trains that make better time than the steam roads of the average lines.

The electric railway is the ideal line for Florida. With no snow to contend with, and no occasion for heating the cars except at the most a month or six weeks in the year, these roads would get all the local traffic. With the coming of the electric roads the towns along these roads would be enabled to secure electric currents for lighting and power, thus developing them in advance of what they would be for years, were it not for this new method. Florida only needs one or two of these interurban lines to convince the people of their practicability, and the small outlay required to prepare the roadbeds in nearly all portions of the State should make their construction much cheaper than in many States where they have been built and operated successfully.

The only objection raised to their promotion in some localities is the fact that there are not enough people to make them pay. But an electric road running through the country would gather up the products of farmers and truckers, delivering them at the market places or shipping points at a nominal cost.

FREIGHT LINE TO CUBA.

The construction of a railway along the islands of South Florida to Key West, which is an undoubted fact in the near future, will be the means of developing a transportation line from Key West to Havana, and it will be an easy matter to send the loaded cars direct by car ferry to the port of Havana. The railway lines from the East to the West have for a number of years employed large car ferries to carry loaded cars across Lake Michigan, a distance equally as great, besides being compelled to construct boats strong enough to plow through upwards of 24 inches of ice during the winter season.

These monster ferry boats on the Great Lakes carry from 20 to 30 loaded freight cars, make good time and have room for the accommodation of passengers at the same time. Freight cars could be sent from New York direct to Havana, securely sealed and delivered almost in the same time as by all rail.

LAW ENFORCEMENT.

The Board of County Commissioners of Citrus county believe in enforcing the law. Justice Geo. T. Nelson fined Charlie Dennis \$5 for carrying concealed weapons, and the clerk was ordered to notify Justice Nelson that he must either try this man again under the law, or the board would charge his Honor up with \$100—that being the smallest fine possible—and take his fees to pay the same.

Judge Whitaker of Tampa has been reading a lesson to the gamblers of that city and the keepers of the houses were fined \$50 or 90 days in jail, and informed by His Honor that the next time they were brought before him they would get a \$200 fine and 90 days on the chain gang, and six months if the fine and costs were not paid.

There is certainly an earnest effort being made to enforce the laws in Florida.

The investigation of the Standard Oil Company by the same methods that had the beef trust in hand, will probably result in the same results. For ways that are dark there is no corporation in the country that is ahead of the Standard Oil Company, and there is a feeling of distrust that the efforts to fasten any guilt on this corporation will be of any avail.

LAST DAY OF THE TEACHERS' MEETING

Program Was Carried Out in a Most Impressive Manner.

NEW OFFICERS WERE ELECTED

For the Ensuing Term, After Which the Institute Adjourned for Another Year. Institute Attended by Ninety-Five Per Cent of Teachers.

The third and last day of the Alachua County Teachers' Institute convened at the auditorium of the Gainesville Graded and High School Saturday morning at 8:30 o'clock.

The session was opened by a short prayer by Rev. T. J. Nixon of the Methodist church, followed by the roll call, a large number of teachers responding.

At 9 o'clock Miss Edith Baird read a most interesting paper on "How to Train the Parents to Co-operate With the School Through the Children." This subject Miss Baird handled with perfection, commanding the closest attention. The discussion on the subject was ably handled by Prof. Joseph Henderson Coffey, principal of the Waldo school.

Superintendent J. L. Kelley made a short but most interesting address to the Institute, after which the annual business meeting was held. Among the most important business was the election of officers for the ensuing term. Each candidate was elected unanimously as follows:

M. H. DeLand, Alachua, president; Miss Claudia Ambrose, Waldo, vice-president; Miss Marie Carleton, Hawthorn, secretary; Prof. S. E. McIntosh, Island Grove, assistant secretary; Prof. J. H. Coffey, Waldo, treasurer. The president-elect appointed the following executive committee: Prof. J. G. Kellum, chairman; Capt. G. M. Lynch and Superintendent J. L. Kelley.

E. F. S. WAS DEFEATED.

Stetson Boys Too Strong, and Gainesville Went Down in Defeat.

From Saturday's Daily Sun.

A telegram to The Sun from Sandy Graham, DeLand, states that in the baseball game between E. F. S. and Stetson teams Friday afternoon, the latter were victorious by the tremendous score of 12 to 1.

It was the intention of the Seminary boys to proceed to Palatka last night and meet the aggregation of ball twirlers of the Gem City, but it was determined to remain in DeLand and show the Stetson boys how to play good ball today, hence there will be another game between E. F. S. and Stetson this afternoon.

Something must be wrong.

E. F. S. Defeated Again.

From Sunday's Daily Sun.

DeLand, March 11.—East Florida Seminary was defeated for the second time by the Stetson University baseball team today, the score being ten to eight in favor of Stetson. East Florida Seminary had the game virtually won, but threw it away in the eighth, when the boys seemed suddenly to go to pieces.

Harmon pitched two beautiful games. The Seminary in the game today made thirteen hits against Stetson's seven, and the Seminary boys made only three errors, while six were charged to Stetson.

The Seminary team will arrive in Gainesville via Gainesville and Gulf this morning.

TRUCKING ACREAGE WILL BE HEAVY

Superintendent Barker Makes a Survey of the Situation.

THE CROP IS DIVERSIFIED

Truckers Have Prospects of Prolific Yield, and Are Expecting Big Things—One Firm Will Cultivate Four Hundred Acres.

Superintendent L. E. Barker, of the Gainesville and Gulf Railroad, recently made a tour of inspection of this road from Gainesville to Fairfield, in the matter of ascertaining the prospects for the coming vegetable crop, and was well pleased with what he saw. Captain Barker made a thorough investigation, stopping at all points along the line, and to his gratification ascertained that the acreage for the spring crop was never more extensive, or the prospects for a successful and prolific yield never better. The crop now growing comprises beans, peas, cucumbers, tomatoes, and in fact everything in the vegetable line, and the greater part of it is flourishing. The truckers are happy, prosperous and confident, and expect to reap a rich financial harvest the coming season.

Cave & Co., who are located near Fairfield, are preparing to put out the largest crop ever attempted by any firm in this section. The tract will comprise four hundred acres under cultivation, and the crop will be diversified. This firm are among the most extensive truckers in the State, as well as the most successful. They are in every sense of the word practical truckers, and their knowledge of the business has proved of great advantage.

Captain Barker states that the prospects are good for a large cantaloupe and melon crop along the G. & G. the coming season.

The Gainesville & Gulf traverses one of the most fertile fruit and vegetable sections in Florida, and hundreds of carloads of truck are moved by this road annually.

THE PEOPLE COME SLOW.

Assessor Colson Complains Property Owners Are Procrastinating.

County Tax Assessor W. W. Colson and Assistant Assessor Miller have been kept quite busy recently on the books, but feel somewhat relieved, since they have about caught up with the work.

"I dislike very much to make complaint," remarked the assessor Saturday, "but some of these property owners, especially those in the city, are very slow about sending in their returns. This is a great inconvenience to this office, as frequently we are compelled to hunt a man down, when he could so easily drop into the office and make his return. I believe if they realized how much trouble and inconvenience they place us to they would not hesitate to report their returns here, for either myself or my assistant can always be found in the office."

"It is important that these returns should be made," continued Mr. Colson. "Gainesville is growing rapidly and a great deal of real estate is constantly changing hands. We have no way of ascertaining these transfers unless they are reported here, and I hope in future the public will remember this."

EWALD G. ABEL'S FINE ORCHESTRA

Able Lecture by Rev. Dr. Bible, the Eminent Divine.

MUSICAL AND LITERARY TREAT

Chautauqua Has a Fine Program for Saturday—Brilliant Lecture and a Grand Musical Evening Please the Patrons of Gainesville Chautauqua.

The weather of Saturday kept many away from the Tabernacle, but those who attended both sessions will never regret it, from the fact that the two programs were of the best, and the concert in the evening a grand musical treat.

The Chautauqua audience at the afternoon entertainment at 3 o'clock was treated to a rare and scholarly effort in the address of Rev. Dr. Bible. Many who were present declare it one of the best of the entire assembly.

Concert at Night.

The concert at 8 p. m. by the Abel Concert Orchestra was all that the most critical had anticipated, and this was one instance where participation exceeded anticipation. The numbers on the program were from the best authors, many from the old masters. The first on the program, "Concert Overture in D," was well performed, as was each succeeding selection.

The bass solo, "Song to the Evening Star," by Mr. Joseph Schreiber, showed the powerful and highly cultivated voice of that gentleman to good advantage, and he responded to an enthusiastic encore with another equally as fine.

The clarinet solo, "My Old Kentucky Home," arranged by Mr. Abel and performed by Mr. Robert Jack, showed perfect execution of the cadenzas, and his entire instrumentation of the difficult number was faultless.

The orchestra played with perfect concert of movement, the modulation of tones and harmonious blending bringing out the strongest points, the instrumentation of the entire six numbers being remarkable for its expression of tone. Not a poor member in the whole ten, and the applause was most hearty throughout. Dr. Strouse deserves special thanks for this treat.

INFORMATIONS FILED.

State's Attorney Calhoun Created Mild Sensation This Week.

There has been "something doing," to use the expression, for the past three or four days in the office of Tax Collector W. D. Dickinson in the matter of the payment of occupational taxes. This rush was among all classes of merchants, business and professional men who were delinquent in the matter of occupational license tax for the present year, and against whom State's Attorney Calhoun filed information.

This is a new departure, apparently, as these matters have heretofore been allowed to drag along in any old haphazard manner, the delinquents being extended the courtesy of leniency, so that a number of them paid whenever they felt it convenient to do so.

The information filed by Attorney Calhoun included about forty names, various occupations, among whom were merchants, doctors, lawyers, etc. It did not require a very long time to get matters on the move, however, with the result that the coffers of the treasurer's office have been increased several hundred dollars.

A LIVELY MELEE.

Anthony Polite Assaulted Little Brothers With a Jack Lever.

A jack lever is an innocent looking thing, but in the hands of Anthony Polite, colored, it demonstrated the painful side of usefulness Saturday morning. Polite, by the aid of this jack lever, knocked one man into unconsciousness and severely bruised another, all of which cost Polite \$10 or thirty days in jail.

The men assaulted were Richard and Christopher Little, brothers, and the incident occurred in Foreman Cameron's section gang, Atlantic Coast Line, where all parties were employed. Christopher Little stated

that, without provocation, simply because he would have nothing to do with him, Polite struck him without warning and knocked him backward into a ditch, where he lay unconscious. Richard Little started to the assistance of his brother, when it is said Polite bent the jack lever over his head "just for instance."

Polite was arrested by Officer Granger and arraigned before Justice Coleman, with the above result. Having no money, he was remanded to prison.

Election Was Void.

Attorney Christopher Matheson and W. S. Broome returned Friday from High Springs, where they went to represent "two sides of a question" in an election contest case.

An election for city officers was recently held in High Springs, two tickets representing what is said to be two factions being in the field. The defeated faction was not satisfied with the manner in which the election was held, alleging that the booths were not constructed in accordance with law, and alleging also that the booth, which the law provided should be occupied by only one voter at a time, was a regular rendezvous for caucusers. As a result of these charges there was a legal squabble, Attorney Matheson representing the "ins" and Attorney Broome the "outs."

At the conclusion of the argument the election was declared illegal, null and void, and not held in accordance with law, hence it will be necessary to call another election.

ALACHUA COUNTY'S NEW DEPARTURE

Rural Free Delivery Routes to be
Established Here.

ROUTE NUMBER ONE ASSURED

Rural Free Mail Delivery Agent Parker Made Personal Survey, and Was Well Pleased—Recommended That Route No. 1 be Established.

Alachua county has made another step in the march of progress which has characterized this section particularly for the past two years, the establishment of rural mail routes leading from Gainesville to various sections of the county being now assured. Rural Free Delivery Agent Parker of the United States government has been here and made a personal survey of the situation, with the result that he has recommended the immediate establishment of Route No. 1, which will extend from Gainesville to Bennington, Rutledge and intermediate points, a distance of twenty-six miles, round trip, and accommodating about 150 families. This route was viewed and mapped out by Agent Parker and Benj. Arnow.

Blanks for examination of applicants have been sent by the postoffice department to Postmaster Arnow, and those desiring same may be accommodated by applying to that official. The position is under civil service rules, hence non-political. Rural carriers are paid a salary of \$720 per year, or \$60 per month, for six days' work of eight hours, but the carriers are required to furnish and provide for their own team. The postmaster invites applicants. All persons over eighteen years of age, of good moral character, are eligible.

Agent Parker selected other routes while here which he will recommend to be established as soon as the necessary petitions requesting same can be secured. Each petition must contain a least one hundred signers—residents in the territory embraced. Postmaster Arnow feels confident that the petitions will be presented, and the routes established in a short while.

The routes as planned, leading from Gainesville, will be as follows:

Route No. 2, to vicinity of Warren's Cave and return, twenty-six miles; No. 3, to points in westerly direction to points north of Seaboard Air Line, but not affecting towns on said railroad, and return, twenty-six miles; No. 4, to Rocky Point and other towns south of Seaboard Air Line and return, twenty-five miles; No. 5, east to Stewartsville, English Colony, etc., and return, twenty-five miles.

Postmaster Arnow is particularly desirous of establishing these routes, which will be a great convenience to country people. He would also be glad to hear from any person desiring to make application for carrier.

A PROSPEROUS BUSINESS.

Osteen & Herrin of Micanopy Are Anticipating Successful Year.

F. S. Osteen of Micanopy, member of the firm of Osteen & Herrin, manufacturers of naval stores, was among the business visitors to Gainesville Friday.

Mr. Osteen states that prospects were never better in the naval stores business, as far as his firm is concerned. The firm has increased its crop from ten and a half to eighteen, and expects to make this year between 600 and 700 barrels of spirits, which means about 2,100 barrels of resin.

Mr. Osteen is one of the best posted naval stores operators in the State, and has always been successful in this work.

DISTINGUISHED DELEGATES.

Gainesville People Highly Complimented by Daily Capitol.

The Tallahassee Daily Capitol of the 9th inst. has the following complimentary to say regarding Gainesville: "A distinguished delegation of Knights in attendance upon the Grand Lodge who were calling upon Mr. Holloway, Miss Hampton and Mr. McIntosh at their office yesterday, were the following: District Deputy Grand Chancellor W. E. Dow, Captain Geo. M. Lynch of the East Florida Seminary, Grand Master-at-Arms Louis C. Lynch, W. R. McKinstry of the First National Bank of Gainesville, L. N. Pearce, Esq., a prominent Alachua county business man, Hon. R. E. Davis, a leading attorney, all of Gainesville; and Hon. Geo. P. Morris, Mrs. Morris, Hon. E. R. B. Kite, Mrs. Andrew Jolly, Mrs. Kunz, Mrs. Dr. Strickland, all prominent business and social leaders of Waldo. These formed a pleasant party who arrived Tuesday night in a private car and are living on the fat of the land at the Leon, and enjoying their stay in the Capitol City.

"We have some Gainesville people among us that we like very much" and are glad to welcome others from that thriving burg."

CHAIRMAN TAYLOR'S REPORT.

Chairman Street Committee Has Performed Excellent Work.

Alderman W. B. Taylor, chairman of the street committee of the City Council, has performed some excellent work within the past year, as will be seen from a recapitulation of his report, which has been made to Chairman Broome of the finance committee. Notwithstanding that Mr. Taylor assumed the chairmanship of the street committee when the street fund was largely overdrawn, he has worked the committee out of financial embarrassment, and besides has accomplished a great deal in the matter of paving and other substantial improvements.

The recapitulation shows the following:

Total number of lineal feet paved on forty-foot street, 5,558; total number of lineal feet paved on ninety-foot street, 1,280. Number of vitrified brick bought and delivered, 100,000; number vitrified brick bought not yet delivered, 7,000.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest of its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

He feels almost as if this was his home, and delights in the great improvements in every way within the past two or three years. READ THIS.

Lexington, Tenn., June 8, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,

C. R. Scott, Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. After spending a season pleasantly at the Endel Inn, Dr. D. Hibbs Sangston and family and Mrs. J. P. Sangston of Uniontown, Pa., have gone to Jacksonville, from whence they expect in a few days to proceed to their Northern home. Dr. J. P. Sangston declares that he is "stuck" on Gainesville and its climate and people that he is loth to leave, and expects to remain here for several days yet. The entire party were delighted, and by their affability made many friends here who will miss them, but hope to see them early next season.

T. J. Cone, the lumber manufacturer who owns a fine mill at Raleigh, stated when in the city Thursday that he had arranged for connection by the East Florida Telephone Company with Gainesville and other points. The poles have been erected, the insulators placed, and the line will be completed and in working order by the beginning of next week. Mr. Cone is up-to-date in his ideas, which accounts in a large measure for his success. He may now sit in his office and transact business which formerly compelled him to come to Gainesville. Mr. Cone has recently made additions to his mill which will greatly increase the output. The plant is now capable of turning out 30,000 feet of lumber a day.
